

MindAI

Scaling up **AI** products
and **accelerating**
the world's transition
to **Web3**.

Whitepaper

v 1.3

INTRO

Our **goal** when we have created **MindAI** is the same as it today: to **scale up Artificial Intelligence** products and **accelerating the world's transition to Web3**.

By putting our heart and mind in this we define this new paradigm in artificial intelligence and Web3 as **MindAI**.

TMC is a cryptocurrency coin at the center of the MindAI's ecosystem. **TMC** is a **utility token** that allow you to **pay for goods and services**, **saving in fees** and **exclusive access to the AI powered products** on the MindAI's platform.

DISCLAIMER

Purchasing **TMC** tokens involves an element of risk and may lead to the loss of a substantial part or the entirety of the principal monies advanced. Before purchasing The MindAI Coin (TMC) tokens, diligently and thoroughly assess and take into account the risks identified in this whitepaper, as well as others risks not included or anticipated in this document.

Only purchase **TMC** tokens if you fully understand the tokenomics of **TMC** supply and issuance and the **TMC** economy. Crypto assets can be subject to expropriation and/or theft. Computer hackers or other malicious groups or organisations may attempt to interfere with the **officialmindai.com** platform in a number of different ways – these may include malware attacks, distributed denial of service attacks and consensus-based exploits such as a 51% attack that could result in the loss of **TMC** tokens or the loss of the ability to access **TMC** tokens. Because of the **immutable** nature of **blockchain transactions** there may be no remedy if a successful attack by malicious actors was to take place against the Ethereum Chain that the **MindAI** platform is built on.

Readers of this whitepaper may also need to consult a tax professional, accountant, lawyer or other professionals in order to fully satisfy themselves regarding any outstanding matters related to how the **MindAI** platform is designed and operated, before deciding whether a purchase of **TMC** tokens would be in line with their risk profile.
